## Description

Probably one of the finest gulets sailing in the Mediterranean, Infinity can accommodate 12 guests in one master, one VIP and four luxuriously appointed staterooms, all featuring state of the art entertainment systems.

She has immense and stylish deck spaces and fine contemporary interiors which sets her apart from the competition.

At the front deck there are luxuriously cushioned large deck spaces for soaking up the sun, as well as a stylish seating group which can be shaded under a cone shaped awning.

Alfresco dining table is located at the aft deck area. From here, you can also access to the fly-bridge where you can enjoy an ice cold champagne during sunset. The great panorama of the serene natural surroundings is an experience that will be hard to erase from your memory.
